

AFGHANISTAN

Aid projects for the needy and persecuted

Our **office in Kabul** serves to prepare the family reunion of recognized refugees from Afghanistan. The EMG carries the office costs and supports the international networking of our staff.

We need donations for this undertaking.

The EMG is also involved in the **documentation of the genocide of the HAZARA** and helps this particularly oppressed people.

Social project in the Bamijan province in the Yakawlang area:

The German nurse **Edda Dohm** has been working for many years in the **house „Zuflucht“**, which she founded in 1990 in one of the poorest regions of Afghanistan. She has already taken Afghan citizenship. Under her direction, outcast, homeless, disabled and leprosy-suffering people, mainly women, are admitted.

The EMG supports this project and is considering taking over the sponsorship.

Edda Dohm during her visit in Glasow and in the house „Zuflucht“

Projects: PJ 2015-037 / PJ 2015-003
